SWIVEL

ONE

The Transformative Portal for Seamless Business Operations

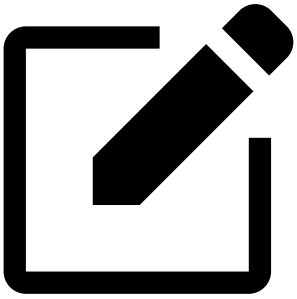

Introducing Swivel ONE – the revolutionary platform that redefines the way your organization operates. Designed with the user in mind, Swivel ONE delivers a centralized, intuitive interface that streamlines access to all your critical business systems and information.

ONE Portal: A Single Source of Truth

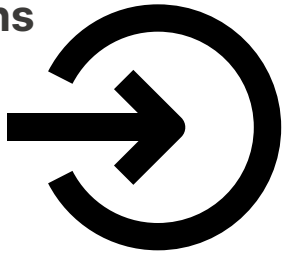

Swivel ONE's flagship component, the ONE Portal, is your gateway to a unified, user-centric workspace. Seamlessly integrating with your existing HRM, CRM, ERP, and other core systems, the ONE Portal consolidates the information and functionalities you need most, empowering your employees to work smarter and more efficiently. Whether it's accessing company directories, retrieving important documents, submitting leave requests, or monitoring key business metrics, the ONE Portal puts the power at your fingertips, no matter where you are.

ONE Editor: Empower Your IT Team

Complementing the ONE Portal is the intuitive ONE Editor, a powerful tool that enables your IT team to rapidly develop custom web applications with minimal front-end expertise. By focusing on the back-end logic and user needs, your IT professionals can quickly address evolving business requirements and deliver tailored solutions that drive productivity and operational excellence.

Unlock the Future of Seamless Business Operations

Swivel ONE is the transformative solution that brings your organization into the digital age. Eliminate the need for multiple logins and scattered systems, and embrace the power of a centralized, user-friendly platform that puts your employees and business needs first. Experience the future of seamless business operations with Swivel ONE.
